Author Index to Volume 11

Adams, W. D., 145
Andringa, A., 145

Barr, H. A., 105
Boucher, R. C., 75
Bourbon, J. R., 195
Brooks, S. M., 145
Byrne, P. J., 49

Catanese, A., 229
Churg, A., 307
Cibulas, W., Jr., 145
Comparini, L., 35

Dahlby, R., 307
del Campo, A., 263
Doucet, E., 195

Filipenko, D., 307
Fine, A., 245
Fonzi, L., 35
Fujita, Y., 61

Gardi, C., 35
Gilmore, L. B., 277
Goldstein, R. H., 229, 245
Gonmori, K., 295
Gordon, R. E., 179
Graham, D., 95

Hede, A. R., 1
Henderson, F. W., 95
Hook, G. E. R., 277
Hristoforidis, C. P., 129

Jetten, A. M., 277
Johnson, D. A., 95
Jones, M. E., 105

Karlinsky, J. B., 229
Katyal, S. L., 263
Kina, T., 61
Kleinerman, J., 179
Kogishi, K., 61
Kumar, R. K., 129

Lauweryns, J. M., 319
Lindahl, M., 1
Lungarella, G., 35
Lykke, A. W. J., 129

McMahon, J. B., 263
Martorana, P. A., 35
Mehendale, H. M., 295
Miller, M. L., 145

Naumann, B. D., 13
Nettesheim, P., 277
Nicholas, T. E., 105
Nishikawa, S., 61

Parra, S. C., 209
Patton, S. E., 277
Pignol, B., 195
Post, M., 165
Power, J. H. T., 105
Prasada Rao, K. S., 295

Rieutort, M., 195

Schlesinger, R. B., 13
Schuller, H. M., 263
Share, N. N., 35
Shelburne, J. D., 209
Singh, G., 263
Smith, A. C., 263
Smith, B. T., 165
Smith, G. J., 129
Snider, G. L., 229

Solano, D., 179
Stiles, A. D., 165
Suzuki, Y., 61

Tagesson, C., 1
Tanswell, A. K., 49
Thet, L. A., 209
Tordet, C., 195
Tron, V., 307
Truscott, J. Y., 129
Tzaki, M. G., 49

Van Lommel, A., 319
Van Scott, M. R., 75
Vinegar, A., 145

Winters, R. S., 95
Woolley, T., 95
Wright, J. L., 307

Yankaskas, J. R., 75

Zimmerman, M., 35

Acute inhalation of sulfuric acid mist, assessment of early alveolar particle clearance and macrophage function following, 13
Acute oxygen-induced lung injury, changes in lung morphology during repair of, 209
Airway epithelial cells, culture of, 75
Alveolar particle clearance and macrophage function following acute inhalation of sulfuric acid mist, 13
Antioxidant enzyme activity of rat fetal lung cells in vitro, influence of hormonal and local factors upon, 49
Asbestos-induced airway disease, pathophysiologic correlations in, 307

Biosynthesis and release of proteins by isolated pulmonary clara cells, 277
Blood plasma inhibitory activity and ozone effects on alpha-1-proteinase inhibitor in vivo, 95

Clara cells, biosynthesis and release of proteins by, 277
Criteria, morphological, biochemical, and immunological, characterization of cells by, 263

Diabetic pregnancy, phosphatidylglycerol biosynthesis in, 195

Elastase-induced emphysema, effect of novel synthetic protease inhibitor furoyl saccharin on, 35
Endotracheally instilled porcine pancreatic elastase, resistance of young and adult hamsters to, 229

Fibrotic reactions, activation of lung fibroblast and, 245
Fifteen-thousand dalton protein associated with porcine pulmonary surfactant, a monoclonal antibody to, 61

5-Hydroxytryptamine, pulmonary synthesis of, 295

Inhalation of toluene diisocyanate vapors, morphology of tracheal and bronchial epithelium cells after, 149

Intrapulmonary axon reflexes, 319

Lysophosphatidylcholine, increase of airway and

capillary permeability in the isolated perfused rat lung, 1

Monoclonal antibody to 15,000 dalton protein associated with porcine pulmonary surfactant, 61

Pathophysiologic correlations in asbestos-induced airway disease, 307
Pulmonary phospholipid compartments, analysis of, in unanesthetized rat during prolonged periods of hyperpnea, 105
Pulmonary synthesis in isolated perfused rabbit and rat lung preparations of 5-hydroxytryptamine, 295

Reciprocal autocrine and paracrine regulation of growth, in mesenchymal and alveolar epithelial cells, 165
Respiratory epithelium, tight junction alterations of, 179

Tracheal and bronchial epithelium and type 2 cells of peripheral lung, morphology after inhalation of toluene diisocyanate vapors, 149
Type II cells, characterization by morphological, immunological, and biochemical criteria, 233
Type II pneumocyte-related cell strain induced by lymphokine-enriched supernatants of mitogen-stimulated spleen cells; altered morphology, growth, and biosynthetic activity of, 129

Vagotomy procedures, effect on reaction to hypoxia of rabbit neuroepithelial bodies, 319
